Interest in the Laymen's Missionary Convention to be held in Houston February 18-19-20 is spreading over the southern half of the state, and indications are that this will be the largest religious gathering ever known in Texas. Non-denominational as it is, the Laymen's Missionary Movement has attracted to it the most prominent men all over the United States among the laymen, particularly business men. No collection will be taken at the Houston Convention, and the sole object is educational—that it may result in quickening the consciences of the churches to their responsibility for the evangelization of the world.
